

Please consider the privacy of the consumer in the sanctity of their own home. WE are the ones that pay the monthly fee for the use of a telephone. WE didn't agree that others be allowed to use OUR service to sell their products when purchasing said service. It's imperative that the consumer have a choice and a voice to say NO to the intrusive phone calls that disrupt an already hectic day. In this land of freedom, please do not take our choice away. I, for one, say NO!
